October 2026

Adient Global Supplier Standards Manual Updated

Dear valued Supplier,

Our Global Supplier Standards Manual Main and Global Supplier Packaging Standards & Requirements have been updated, effective October 1, 2026.

The Global Supplier Standards Manual (GSSM) outlines Adient's expectations and requirements in the areas of purchasing, quality, and operations, including our commitments to maintaining a sustainable supply chain. The GSSM also serves as Adient's Customer Specific Requirements under **IATF 16949**, the global Automotive quality management standard. By complying with these requirements, suppliers help ensure the quality, reliability and sustainability of products and services delivered to Adient.

Please review all updates and requirements to ensure your company's continued adherence.

Adient Global Supplier Standards Manual can be found at:
Supplier Expectations | Adient

Sincerely,
Adient Purchasing & SCM Team
