# Adient Supplier Communication Letter

**Dear Valued EDI Partner,**

As part of Adient's commitment to continuous improvement and operational excellence, we are implementing a strategic change to our Electronic Data Interchange (EDI) infrastructure. Effective in the coming months, **Adient will be upgrading EDI system and moving to an on-premises solution**.

This change is designed to enhance system reliability, security, and performance across our global supply chain. To ensure a seamless transition and prevent any disruption to EDI traffic please review Adient guidelines verify mapping correctness.

If the **Adient EDI Onboarding Team has not contacted you** with detailed instructions, timelines, and technical requirements; please provide us you EDI technical contact by sending an email to EDI-Onboarding@adient.com.

**Your support and timely collaboration are critical to the success of this migration.** Please prioritize this activity within your organization to avoid any potential delays or interruptions in data exchange.

---

**Key Information and Resources**

- **EDI Specifications and Labelling Guidelines:**

Available on the Adient Supplier Expectations Portal.

- **Certificates and Connectivity Requirements:**

Seeburger BIS AS2 / OFTP2 certificates and related documentation can be downloaded from the portal.

- **Compliance:**

All suppliers are expected to adhere to Adient's EDI and labelling standards as outlined in the portal.

---

**Next Steps**

- Prepare your internal teams for configuration updates and testing.
- Expect direct communication from the Adient EDI Onboarding Team.
- Respond promptly to all onboarding requests to ensure timely completion.

For any questions or assistance, please contact the Adient EDI Onboarding Team at EDI-Onboarding@adient.com

We appreciate your continued partnership and cooperation as we implement this important enhancement to our EDI capabilities.

**Sincerely,**

Mike Dietzen
Global EDI Manager
