## **Adient Supplier Code of Conduct**

Dear valued Supplier,

We recently published our Adient Supplier Code of Conduct.

The Supplier Code of Conduct outlines the ethical, legal, environmental, and social standards that all suppliers, contractors, and business partners providing goods or services to Adient worldwide are expected to follow. It underscores our commitment to responsible sourcing, sustainability, and the protection of human rights throughout our supply chain.

Although suppliers are not required to formally sign the new Supplier Code of Conduct, all suppliers must comply with its provisions.

The Supplier Code of Conduct can be found at: [Supplier Expectations | Adient](#)

Sincerely,  
Adient Purchasing Compliance & Risk Management Team
